### Internet

Please indicate on the grid the location for your internet drop (s) using "W" to signify a wired internet drop. If no location is indicated, the internet drop will be placed in the middle of the booth.

All IP Address information is assigned automatically via DHCP. Please ensure that that the TCP/IP is ENABLED and configured to "OBTAIN AN IP ADDRESS AUTOMATICALLY". If your computer is normally networked in an office setting, please verify compatibility with your IT representative. Outside routers, hubs, or access points are NOT permitted.

### Power

Please indicate on the grid the location of your power drop(s) using exact measurements and how many amps each power drop should have (e.g. 15A). If no location is indicated, the power drop will be placed in the middle back of the booth. There is a minimum labor charge for hook-up and dismantle for all non-standard locations, multiple outlet locations, island booths and 208V services.

Encore is not responsible for voltage fluctuations or power failure due to temporary conditions.
